	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Title should be reframed as this is not a case series but a report of three cases2. After how much time author have removed the metapex before conventional root canal treatment3. How the authors checked the pulp vitality?4. How the apical barriers was confirmed in the apical third of root.5. No mention about the root canal treatment in the case report after apexification.6. All IOPA should have same orientation/direction7. Follow up IOPA of 5 months not resembling with the other IOPA's.8. 8 months followup is too less to make a decision about peri apical healing.9. Need to cite more references in the discussion.	
Minor REVISION comments		
Optional/General comments	Grammatical mistakes References as per journal's instructions
