

Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_91392
Title of the Manuscript:	EXPERIMENTAL STUDY OF PAPAYA DRYING IN AN INDIRECT SOLAR DRYER IN NATURAL CONVECTION
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Comment 1: Statement made under Abstract "The results obtained show that for slices of papaya 1 cm thick dry less quickly than that of 0.5 cm thickness" is confusing if you see Fig. 5. Comment 2: Figure 1 caption is there in the text, however Figure is missing. Comment 3: Third form should be avoided in the technical report e.g. (We conducted our experimental work in an indirect solar dryer in natural)" Abstract line 3 and "We followed the evolution of the temperature from the inlet to the outlet of the sensor and that of the drying chamber as a function of time and sunshine) Result line 2. Comment 4: Thickness of papaya slices should be optimized considering the cost of making slice. Drying duration is an important parameter, which will depend on Thickness of papaya slices.	
Minor REVISION comments		
Optional/General comments	Manuscript is written poorly. It may be rewritten
