PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Need to reconsider the title of the experiment. s not clear what authors are trying to'tt .reveal Abstract should re organized and revised as per sequence which is suggested in comments. Introduction is verbose. Therefore, it should not contain more than 3-4 paras. please also introduce the special oils and compounds in the Introduction part. e.g. what is trans-anethole, fenchone, DPPH, fenshone, α - pinene, D-limonene and so on Materials and methods have some minor corrections which need to be addressed. As this is a 2 year experimental data; so It would be better if pooled data of 2 years are presented Conclusion should be more simple, specific and contain key message only	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
