

Review Form 1.6

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_92624
Title of the Manuscript:	Studies on impact of processing on physiochemical and biochemical properties of osmodehydrated pineapple (Ananas comosus(L)Merr.) cube and its storage stability
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalejnf.com/index.php/EJNFS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript need to be edited, complemented, because some parts of the text are duplicated e.g. description of pineapple, osmotic dehydration, aim of the work, 1 st paragraph of the Result and Discussion chapter, and furthermore certain part of the text is more suitable to another subchapter. Some part of the introduction chapter relates loosely to the topic. For repeatability: Complementation is needed in case of the description of C-vitamin method and storage experiment, sample extraction for TPC and Frap, C vitamin analysis, brief description of water content method and steaming process. Complementation of results evaluation e.g. storage experiment. Table 1.: missing evaluation.	
Minor REVISION comments	Correction of references and citations in the text e.g. Ranganna (1986), Rahman, M. S,1990, [5, 6]. Correct the abbreviations: unit of mass which is "g", please. and "ha" to hectare. It is recommended to consistently apply the codes A1-A3 not only on Fig1. - 3, but also Fig.4-5. Check the table numbers in the text, please. Please specify correctly the names of the tables and figures. Supply the chapter numbering.	
Optional/General comments	From the healthy nutrition point of view, this research are very valuable. It is recommended to approach the osmotically dried fruit product with high sugar content from the nutritional aspect, highlighting the variation of bioactive content. The manuscript contain a lot of valuable results which need to be evaluated.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
