

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_89754
Title of the Manuscript:	STUDIES ON EFFECT OF BIOFERTILIZERS AND BIOSTIMULANT ON YIELD PARAMETERS OF GUAVA ( <i>Psidium guajava</i> L.) cv. ALLAHABAD SAFEDA UNDER MEADOW PLANTING SYSTEM
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The paper was performed following a correctly performed experiment. The abstract of the paper is concise and presents well the experimental framework and the conclusions obtained. The introduction is based on the consultation of some papers on the topic. The discussion of the experimental results is extensive, being made by comparison with data from the consulted literature. The value of the paper would increase if the results were interpreted statistically. In the paper are presented only averages for the characters studied. It would be necessary, at least one application of the analysis of variance for the experimental data obtained.	
<b>Minor</b> REVISION comments	I recommend, if possible, that at least variance analysis be applied to the experimental data obtained, this would increase the scientific value of the paper. It is up to the editorial staff to decide whether this will be done.	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
