| Journal Name: | International Journal of Environment and Climate Change |
| Manuscript Number: | Ms_IJECC_91137 |
| Title of the Manuscript: | Effect of exogenous application of auxin on leaf cuttings of Mexican Snow Ball (<i>Echeveria elegans</i> Rose) |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <ol style="list-style-type: none">1. Statistical data analysis seems not sufficient. Author/s should include more multivariate analyses to provide strong and reliable results.2. Table of ANOVA needed in the text.3. Mean comparison table missed.4. How you differentiate effects of each treatment in combined treatments 8 and 9, RCBD cannot do this!5. Discussion part is so weak. | |
| Minor REVISION comments | | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
