<b>Compulsory</b> REVISION comments	<p>In this paper, the author(s) studied the attack of fungal disease, i.e., leaf blight, of medicinal plants in lower gangetic plains of West Bengal. This topic in this paper is interesting and important, and I have the following comments:</p> <ol style="list-style-type: none"><li>1. the author(s) studied the seasonal incidence of leaf blight in these plants throughout the year. For these results, it is suggested that the authors visually present them through bar or curve graphs, so that readers can understand the results more intuitively.</li><li>2. For equations in the paper, it is suggested that Equation Editor in Microsoft Office or MathType for Microsoft Office to edit them.</li></ol>
