

Editor's Comment:

The authors should address the following minor flaws prior to publication acceptance:

1. Please explain "Rabi" season to international readers.
2. Significant findings, contributions and practical implications should be included in the abstract.
3. Duplicated keywords (same as the paper title) should be re-chosen.
4. Use "and" instead of "&" throughout the entire text.
5. Please number all equations listed in the text.
6. Last names only should be used in citing literature in the text.
7. Some references have not been alphabetically arranged.
8. One of the reference should be "Xiong, YY and Jiao, YL", Xiong and Jiao are their last names.

A thorough proof-check and English check is highly recommended as there are lots of spacing and punctuation errors in this paper.
