### PART 1: Review Comments

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The irrigation and water assumption are key issues of agriculture, so the research conducted is important and such type investigations must be supported. The paper is interesting but contains a lot of errors that have to be corrected. Namely: the paper needs grammar spelling check; the equations must be written using Equation Editor; experiment data is better to present clearly in tables; Discussion is insufficient and unclear.	
<b>Minor</b> REVISION comments	The only 1 plot is insufficient for such type of research and the legend of presented plot contains symbols undefined in the text	
<b>Optional/General</b> comments	The paper contains new results but is written incorrectly and needs major modifications
