### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The article is very well written, presenting the information in a clear and direct way.	
<b>Minor</b> REVISION comments	Some suggestions that can contribute to the quality of the article: Title: delete study, starting with Effect of storage ..... Keywords: the terms used here must not be present in the title of the article, since the Keywords serve to apply the search capability of the article. I suggest replacing it with a term that also represents the article, such as: polyethylene bag. Introduction: no suggestions. Material and Methods: it is important to mention the environmental conditions (temperature and relative humidity) in which the seeds stored in different containers were exposed during the 3, 6 and 9 months. Tables: there may have been a misconfiguration in the file, but the file that I received some data does not present the ANOVA, compromising the understanding and verification of what is being presented. Check	
<b>Optional/General</b> comments	The article must be published, checking the notes previously presented.
