

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_92083
Title of the Manuscript:	"Effect of Phosphorus and Iron on Growth and Yield of Chickpea (Cicer arietinum var. kabulium)"
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Need more references in the "Introduction". More recent ones too. Give the full taxonomic name for the soil used. Display treatments in table form. What type of statistical software was used to analyse the data? Number the sections and subsections. Expand on the "Materials and Methods" and "Results and Discussion" sections. Way too brief. Place tables next to sections where they are first mentioned. State justification for further research at the end of the "Conclusion" section.	
Minor REVISION comments	Grammatical issues throughout the paper need to be addressed.	
Optional/General comments	This paper needs structural, grammatical and formatting work before publication. I would suggest the author receive consultation from an experienced scientific writer to help with this paper.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
