### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>The subject of the study is current and quite relevant. Similar studies should be encouraged.</b> <b>However, I suggest some points that can improve the presentation of the study, they are:</b> <ul style="list-style-type: none"><li>- The author could expand the bibliographic review on the subject, citing a few more articles that dealt with soil fertility and its influence on crop production.</li><li>- A map highlighting the location would help to locate where the experiment was carried out, especially for readers from other countries.</li></ul>	
<b>Minor</b> REVISION comments	References may be more current. There are many references that are more than five years old.	
<b>Optional/General</b> comments	The article is interesting and contributes significantly to the knowledge of fertilizer application in regions with similar characteristics
