

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_92103
Title of the Manuscript:	Effect of Zn and B on Lentil (<i>Lens culinaris</i>) growth characteristics, yield, and available nutrients in the soil.
Type of the Article	Original Research Article

p

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	In the article presented the influence of Zn and B on lentil growth and yield. During the experiment it was also monitoring available nutrients in the soil. Because the data is taken just from one planting season, to get more precise results, the experiment will be repeated in the future in similar field conditions. Please put in Section 4. Conclusions subpoints to present more clearly the most important findings of the study.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
