Manuscript Number:	Ms_IJECC_92140
Title of the Manuscript:	Estimation of Genetic Variability and Correlation Analysis for Quantitative Traits in Chickpea (Cicer arietinum.L)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The results and discussion section was devoted solely to the presentation of the results. The results presented were not discussed.	
Minor REVISION comments	The introduction needs to be improved in order to make the problem and objectives clear. There are many sentences that are long and sometimes it is not possible to identify the idea expressed. Favours short sentences could make this manuscript more comprehensible to the reader.	
Optional/General comments	The entire manuscript should be reviewed and conform to the SDI-paper template: -references are not cited according to the journal's template, -the font is not in conformity etc.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
