

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_ JECC _92533
Title of the Manuscript:	Sensory Evaluation of Different Value Added Products of Aonla (<i>Emblica officinalis</i> G.) During Storage
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://journaljabb.com/index.php/JABB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	You described the chemical analysis and microbial quality of your products, but you didn't put the results of them. The citations from the text are not found in the References and vice versa. Since there are enough bibliographic sources corresponding to your research topic, only 12 references are too few. I recommend that you have at least 20.	
Minor REVISION comments	I suggest using this site also: https://www.sciencedirect.com/search?q=emblica%20officinalis Here you can find the newest articles in your field of research also.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
