EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. After read the paper entitled :Survey, Occurrence and Management of Purple blotch and Twister disease of Onion (<i>Allium cepa</i> L.); written by R. B. Sonawane, R. M. Birade, H. M. Patil³ and J. K. Dhemre; i conclude that this paper still need refinement : (1) What is the Main problem ; (2) Method : how the data selected and analyzed (3) conclusion.</p>	<p>1. Due to climate change, Twister disease of onion is serious and threatening disease during survey of last 2-3 years. 2. Survey method: Average of five plants in two fields for low and highest disease intensity. The data is analysed by using 0 to 5 scale and calculated the disease % of purple blotch and twister disease by PDI formulas 3. Conclusion is properly revised and narrated.</p>
