

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_92837
Title of the Manuscript:	Biochemical characterization of local populations of <i>Physalis minima</i> suggests correlation between its fruit and medicinal properties
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This paper highlights the biochemical composition of <i>Physalis minima</i> L. This is very important work for underutilized species. Those kinds of plants are used to know road plant or weed by local people although it has the high nutritive and medicinal properties.</p> <p>The research design of this paper is completely described, and it is logically done. In general, the author should carefully describe the scientific name of the materials. English grammar should be improved.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
