

## Review Form 1.6

Journal Name:	<b>International Journal of Environment and Climate Change</b>
Manuscript Number:	<b>Ms_IJECC_93565</b>
Title of the Manuscript:	<b>CORRELATION AND PATH COEFFICIENT ANALYSIS FOR QUANTITATIVE TRAITS IN GREENGRAM [Vigna radiate (L.) Wilczek]</b>
Type of the Article	<b>Original Research Article</b>

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Revisions need to be made according to suggestions (minor revisions)	
<b>Minor</b> REVISION comments	<p><b>Introduction:</b> it is necessary to add information about the importance of the coefficient of phenotypic and genotypic diversity, heritability and expected genetic progress and the correlation between traits. It is also necessary to add to the research results that have been achieved to date.</p> <p><b>Material and Methods:</b> Research methods need to be clearly described so that similar research can be made again</p> <p><b>Result and Discussion:</b> should be described in sub-chapters (1) coefficients of genotypic and phenotypic diversity, (2) heritability and expected genetic progress, (3) correlations between traits, then discussed per sub-chapter so that they will be arranged systematically as described in the abstract.</p>	
<b>Optional/General</b> comments	Articles can be published after improvements according to suggestions	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
