PART 1: Review Comments

	Reviewer's comment.	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This was a good observation, and good results of Nivolumab in pts with NSCLC, and giving good hope for future treatment strategies. There are grammatical errors to be corrected. Some sentences require re phrasing, like pt is non alcoholic, non diabetic, better to write, no co morbid condition. Its written in 2017, pt was diagnosed NSCLC, while in another para , written in 2016 pt was diagnosed T4NoMo tumor, to be corrected. Ct brain scan?? To be corrected as CT scan of barin. There is repetition of sentences in discussion, to be avoided and corrected Conclusion is 1 full page, to be re written as conclusion, in few sentences.	
Minor REVISION comments		
Optional/General comments	This is a good case report with explanation of the course of the disease, and a hope for pts with lung ca. Sentences, errors, and phrases to be re written	

PART 2:
