

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_85258
Title of the Manuscript:	Assessment of Genetic Variability, heritability and genetic advance in Soybean (Glysin max L.) genotypes.
Type of the Article	Original Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This study aimed to investigate the genotypes of soybean yields for a better agricultural crop. Soybean is one of the main legumes produced in the world, being highly appreciated due to its excellent biological qualities. To create an effective program for genetic improvement of soybean, it is necessary to select the best genotypic characteristics of different specimens to generate a better adapted species. This highlights the importance of the study. Overall, the study is relevant for publication. The introduction is good and well written. The results and discussion are appropriate, as well as the conclusion. However, I suggest that some adjustments be made to the material and methods and to the text in general. My comments and suggestions are present in review mode. My suggestion is to accept the manuscript after minor adjustments. Minor revisions.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
