PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Many beneficial results were obtained in this long-term study of nine years of integrated nutrient management practices on soil microbial activities in a grain-based crop system. It seems easy to transfer these results into practice. There are not too many typos or expressions that break the integrity of the meaning in the article. There are a few typos, I marked them as well. Well designed paper.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
