

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_92038
Title of the Manuscript:	Effect of plant growth promoting rhizobacteria on the crop growth and yield of foxtail millet (<i>Setaria italica</i> L. Beauv)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ol style="list-style-type: none">1. This study aims to determine Effect of plant growth promoting rhizobacteria on the crop growth and yield of foxtail millet (<i>Setaria italica</i> L. Beauv)2. The results research of the findings of greenhouse and field experiment revealed that the crop growth and yield was increased in the PGPR-treated plants over the uninoculated control. The present study confirmed that PGPR's exhibit high efficiency even under drought conditions by enhancing root volume in foxtail millet. PGPR's enabled foxtail millet to absorb more moisture and nutrients from the soil and increasing shoot length, improving photosynthesis and overall grain yield. Isolated PGPR's may be used as effective bio-fertilisers in the cultivation of foxtail millet and other crops.3. Research findings become reference material for future research.4. Writing technique please follow the instructions specified by the journal manager in question.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
