Title of the Manuscript:	Identification of Site Specific Interventions for Yarehalli Micro-watershed Using Geospatial Techniques
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. An abstract must start with the need of study 2. An abstract should show the whole compilation of the article so it should also add basic use of the review paper 3. This paper has only compiled other paper resources 4. Only a few references have been added, but many references are not cited properly 5. This manuscript needs to be fully rewritten in their language 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. The abstract part is written grammatically correct but taken from other's paper 2. Introduction paragraphs are also entirely copied from other's resources 3. Paragraph number 2 should have come before paragraph 1 of the introduction 4. The last paragraph also must describe the implementation of a method 5. All sections of the introduction have not been properly cited, so put citations where need its. 6. The study area paragraph should be written in the own language in the materials and method part 7. Paragraph number 3 of the material and method should be written properly without copy paste of others 8. All figures should have citations properly if taken from other's resource 9. Paragraph number 4 of material and method copied 10. Paragraph number 5, 6, and 7 of material and method copied 11. Table No. 1 of material and method copied 12. The results part is fully copied and pasted, so plz, all aspects of the result should be written for his work and implementation 13. The conclusion part of the manuscript is fine to compare to all parts of a paper 14. Only ten references have taken these should be an increase 	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
