

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_92380
Title of the Manuscript:	Assessment of soil properties under long term organic and chemical fertilizer applications using STCR-based targeted yield equations under Rice-wheat cropping system
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Overall, the manuscript is well written. The basic information required in the introduction section is succinctly presented. The results are tabulated and briefly discussed and relevant conclusions are drawn. Comments and questions that could be addressed by the authors are included below.	
Minor REVISION comments	<ol style="list-style-type: none">1. Please add two keywords that are not abbreviations.2. Authors should formulate the main objective of their research.3. Authors determined the CaCO₃ and organic carbon content of the soil by rapid titration according to the 1934 methodology. Could the authors briefly describe what this rapid titration method consisted of?4. The names of journals included in the References section should be standardised, i.e. either written the full name or abbreviated (Guide for Authors).	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
