

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_92851
Title of the Manuscript:	Effects of Nanochitosan and Biocapsule on growth, yield, and quality of Chilli (Capsicum annum L.) in poly-house condition
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**l a c k o f N o v e l t y**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Effects of Nano chitosan and Bio capsule on growth, yield, and quality of Chilli (Capsicum annum L.) in poly- house condition</p> <p>ABSTRACT</p> <p>A field experiment was designed in Randomized Block Design with 7 treatments, replicated thrice under playhouse conditions. The experiment examined the effect of Nano chitosan, bio capsule, and NPK on the growth, yield, and quality of chilli. And to work out the economics of various treatments. It was observed that the treatment T8 (NPK + Nano chitosan 120ppm + Bio capsule 120ppm) was superior over other treatments in terms of growth, yield, and quality of Chilli i.e., plant height (63.73cm), fruit yield per 200m² (3.27q), T.S.S. (9.670B) and ascorbic acid (143.96 mg/100g).</p> <p>Keywords: Nano chitosan, Bio capsule, Chilli, Benefit- cost ratio</p> <p>The title is related to our journal framework.</p> <p>The entire manuscript must first be adjusted to the exact format of the journal.</p> <p>The abstract should be brief and useful. Rewrite the introduction.</p> <p>Literature review means what studies have been done on the topic and what are you saying now.</p> <p>The research method and data collection method should be clarified.</p> <p>References should be written based on APA and powered.</p> <p>Research limitations and suggestions for further studies should also be presented.</p> <p>The all text should be correction about grammar mistakes.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
