

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93082
Title of the Manuscript:	Estimation of Water Productivity of Cucumber and Potato Crops for Water Management in Palestine
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The care of water, especially in regions where there is much difficulty in its consumption and use, is a fundamental issue, especially because it allows optimizing its use and obtaining better food production for survival, that is why I consider its publication. There are some important works with a similar treatment, and one that justifies a little the feasibility of the research. https://www.ijcmas.com/9-7-2020/Shilpa%20Singh,%20et%20al.pdf https://scholar.ptuk.edu.ps/bitstream/123456789/598/1/paper%201.pdf	
Minor REVISION comments	It is an important work although it has some deficiencies that have to be corrected: it changes format in some parts, it does not know how to express the element of the formula correctly, on some occasions to express the equations they use the word equation editor and then the elements of the formulas when referencing them use normal text and the format does not match. The bibliography changes its format for some elements. The spaces after the point.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
