

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93379
Title of the Manuscript:	IMPACT OF NANOSCALE ZINC OXIDE PARTICLE ON THE GROWTH, YIELD AND SOIL PROPERTIES UNDER AGENCY AREA OF ANDHRAPRADESH
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Language correction required Follow journal guidelines	
Optional/General comments	In the paper the author study of eight treatments, three replications with RDF design. Results of nano particulate zinc oxide on pod yield showed that (24.36 Q/ha) in the RDF+ nano scale zinc oxide level @ 200 ppm at 25 and 45 DAS was increased over to that of normal recommended dose of N,P,K fertilizers (100% RDF) which recorded pod yield of 17.14 Q/ha only and investigate the promontory inhibitory effects of various concentrations of ZnO nanoparticles on growth, development and final yield of groundnut. Effect of Nano particulate zinc oxide on growth parameters, effect of Nano particulate zinc oxide on yield and yield attributes, effect of Nano particulate zinc oxide on yield and yield attributes, effect of nanoscale Zinc Oxide on plant and kernel zinc are discussed. the paper is interesting and sufficient and suitable references are used so paper could be published.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
