Manuscript Number:	Ms_IJTDH_91966
Title of the Manuscript:	Serum Thioredoxin Level for Assessment of Response after Ablation Therapy for Hepatocellular Carcinoma in Egyptian Patients
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I would like to appreciate authors for this work, however, there are some missing tables for instance, 1- Baseline data for all studied groups. 2- ROC curve must be included with the table in the manuscript 3- Comparison between AFP and Thioredoxin levels in one ROC curve. 4- It's recommended to do correlation between portal vein invasion and tumour size with Thioredoxin levels. The result chapter was wrote in inappropriate manner, please amend this issue. Discussion chapter needs to be concise No limitations were included in discussion chapter	
Minor REVISION comments	Language editing and Grammar check References style	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
