

**Editor's Comment:**

I have read the reviewer's comments about the manuscript 2022/IJTDH/92171, and the improvements included by the authors.

Manuscript Title: **POLYBACTERIA IN URINARY TRACT INFECTION AMONG ANTENATAL PATIENTS ATTENDING UNIVERSITY TEACHING HOSPITAL ADO-EKITI, EKITI STATE, NIGERIA**

According to the reviewer's criticisms, the manuscript 2022/IJTDH/92171 is potentially suitable for publication in [International Journal of TROPICAL DISEASE & Health](#). However, there is an Ethical issue that must be clarified. There is no information if the study was evaluated and approved by an ethics committee. The obtaining of a formal consent from the patients involved was also not reported. This information must be clarified and the approval protocol number must be included in the manuscript.

**Editor's Details:**
