PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Editing</p> <ul style="list-style-type: none"> ✓ Please revise spelling error and spacing in the research paper <p>Methods:</p> <p>Study design and Setting</p> <ul style="list-style-type: none"> ✓ Please describe the study period <p>Sample size determination and sampling Method</p> <ul style="list-style-type: none"> ✓ You described that 75 registered Nurses are selectee using Yamane formula. But, you didn't put the formula and reference, Thus, be advise to indicate the Yamane sample size determination formula & reference ✓ It is better to describe pictorially how many nurses area selected from each department ✓ For which independent variables are sample size determined? Please describe clearly the step followed in sample size determination beside the formula <p>Statistical analysis</p> <ul style="list-style-type: none"> ✓ The paper in this section said that multivariate analysis was performed for variables that proved to have a significant relationship with the dependent variable. Binary logistic regression was run to develop a prediction model for implementing the Family Witnessed Resuscitation practice. However, the research paper don't provide table or evidence of binary and multivariate analysis performed. Thus, please indicate the bivariate and multivariate analysis performed and describe in tables. 	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
