PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The text needs to be revised by an English native speaker, it has major grammatical and vocabulary flaws that need to be thoroughly corrected.</p> <p>The structure of the article is not adequate for a literature review, as there is no table with the articles that are being reviewed and no section with the methods of the literature review. Articles are presented in the sections without clear rules by which they were selected. Although the topic is interesting and the structure is organized, this is an opinion article, not a literature review.</p> <p>There are no references for many sentences, especially in the Factors section and in the Prevention section.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:
