PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Need a small change in the Title itself as MULTI-ANTIMICROBIAL RESISTANCE, rather MULTI-ANTIOTIC RESISTANCE as he used many non antibiotics. Hence, in the text also, better to change Antimicrobial resistance instead of Antibiotic resistance 2. Abstract is not as per journal's style. Need a change 3. References are not as per journal style. Go to author guidelines. Any reference for more than 6 authors should need et.al. But majority of references used one author followed by et.al. Only after 6 authors use et.al. 4. Correct so many typographic errors by reading line by line. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. In materials and methods - 2.3.1 There is no Mueller Hinton disc diffusion method, it is Kirby - Bauer Disc Diffusion method using Mueller -Hinton agar. Give reference for this. 2. 2.3.2 for Jarlier et al - add a reference number to be cited in the references 3. Table 1 - BLSE expanded as ESBL, change either in the table or in the foot notes as same . 4. In references, for majority quoted as et.al. please refer the author guidelines. 5. In abstract- key word - anterobacteriaceae, it's Entero. 6. Check so many typographic errors and correct. 	
Optional/General comments	A very good article, but presented without refering journal author guidelines.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
