PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I really appreciate the ideas and results contained in this article. However, I believe that there are things that really need to be added by author(s) in order to make article better. Then, it would be better in the introduction the reasons for choosing SBT were explained more comprehensively It is also deemed necessary to discuss the results and conclusions by connecting them with relevant theories and research results.	
Minor REVISION comments	It would be even better if the discussion flow was made using a deductive method of writing, from general to specific.	
Optional/General comments	It would be better if the author(s) complete a statement indicating that there are no competing interest issues	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
