Compulsory REVISION comments	<ol style="list-style-type: none">1. MPA is very rare (affecting about 13 to 19 people in a million). It can occur Vasculitis can happen at any age, especially young and old over 55 year and above so no need to its case report plus appears to affect men and women equally.2. Many people with vasculitis recover and go on to live healthy, normal lives3. With treatment, 90% of patients with MPA improve4. More common among people of certain ages. Usually affects men younger than 45 who smoke or have smoked.	
Minor REVISION comments		
Optional/General comments	<ul style="list-style-type: none">- MPA is very rare (affecting about 13 to 19 people in a million). Can occur Vasculitis can happen at any age, especially young and old over 55 years and above so no need for a case report.- This pathological condition affects ages, especially the elderly over 56 years old, and this is possible. It may also be an old injury that appeared at this age.- Therefore, it should be noted that this work does not contain any new scientific addition	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
