PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This manuscript has many factors which are strongly affected the results. Firstly, comparing staff with students in all the items is wrong as staff have different mood in everything compare to the students such as staff have better income, are experienced, having no exams, or being responsible to the family and providing better situation to their own family. Secondly, staff and students are in different ages. Thirdly, what was the best food? And, ..., how long was the better sleeping time, ... The manuscript is too long and needs to be shorted. It needs to be checked for English grammars and words. Discussion is not written professionally and needs to be rewritten in a text than counting the questions.	
Minor REVISION comments
