PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	None Spelling and punctuation should be check and revised English should be improve	
Minor REVISION comments	As the phytochemicals are discussed present in the extract of Ocimum gratissimum in Table 2, it would have been more precise to add some materials about the significance of these chemicals. It's been reported in the manuscript about their absences or presence in the extract but adding the role played by these chemicals in immune-protective effect would have been much better	
Optional/General comments	A very well-written manuscript with good command on the subject
