PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | The aim of this study is to analyze? Or just to review? In this paper only mention and no comparison of application and results of FMT: in Crohn's Disease, Ulcerative Colitis, Clostridium difficile Infection and Metabolic Syndrome. This writing idea is interesting and quite good, but it has not been written in standard and clear language. Please rearrange this manuscript in good English grammar and a coherent and clear explanation for the reader. | |
| Minor REVISION comments | In abstract, the method did not mention what the authors do in the main article. Please state: A literature search was performed in the PubMed database for clinical trial studies and review articles published in the last 10 (ten) years. The remission of clinical conditions was established as the primary outcome and exclusion criteria was not blind or incomplete blinding studies | |
| Optional/General comments | Should all the letters of main article be written in capital letters? | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
