PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This study is important because it is a subject of interstitial disease related to human daily life. However, it needs to be revised and supplemented as a whole. 1. Abstract : 1) Please describe clearly the purpose of the study. 2) Please move the research design to the text and describe the study materials and methods. 3) Please describe the results in detail, including statistical figures. 2. Results and Discussion : 1) It's meaningful when the results are statistically tested, so I think this is somewhat inadequate. 2) The results presented in this study are insufficient as groundbreaking results in previous studies. 3) Please add limitations and research implications to the discussion	
Minor REVISION comments	All fonts are written in capital letters, so please correct them to small letter except for the first letter of the phrase.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
