PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This study has been made to record the Chikungunya virus infection in pre covid-19 and during covid-19 period, and the result shows that Chikungunya virus infection was higher in pre covid-19 period than the covid-19 period, however, it has not been made the original study to reveal the reason for the difference of Chikungunya virus infection. The study has attempted to make an observation, but has not addressed the determinants of the case difference. It shows the clinical records.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
