PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- In the abstract the authors must put a small introduction before the objective of their work- They must mention the different titles on the two axes in figure 2 and figure 3	
Minor REVISION comments	<ul style="list-style-type: none">- Preferably add other results obtained in the final conclusion	
Optional/General comments	The authors determined the rate of use of presbyopic glasses and identified barriers to their use in Chikun LGA, Kaduna State, Nigeria. Among the main obstacles obtained among the different populations interviewed is an unmet entertainment need and low purchasing power, concerted efforts among stakeholders are needed to close the gap and meet the refraction needs of the population. The research work mentioned is well organized. Their study is indeed interesting and can be useful. I recommend accepting the paper after a review.
