Manuscript Number:	Ms_JAMMR_92555
Title of the Manuscript:	Rising Dementia Cases in Bhutan Needs Non-Pharmacological Interventions
Type of the Article	Letter to Editor

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Thank you for the possibility to review this letter to editor. It tackles a very important issue that became a social challenge during the past years, in developing countries as well. Few of the references are dated – reference from 2004 or even regarding a non-pharmacological program from 2016 are enough and it is needed to be updated looking after new non-pharmacological programs. At page 1 paragraph 2 line 5: it should be "dementia cases" and not only dementia.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
