PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This article discusses an interesting issue. Bibliometric SMEs in this study are seen through gap analysis from previous studies. Suggested in this article, the author provides a discussion regarding the four objectives of the study as stated in addition to explaining the implications of the study, limitations, and future research.	
Minor REVISION comments	Since this study refers to the issue of the importance of E&SMEs especially during the pandemic, it would be good if the author increased the latest references, especially the years 2021 and 2022 in addition to the previous years.	
Optional/General comments	Overall, this article is well written and only needs a little improvement in terms of the discussion section. In addition, the writer can also improve the reference to previous studies that need to be more up to date because this issue refers to the current state of the business environment and also during the pandemic.
