

Review Form 1.6

Journal Name:	Journal of Economics, Management and Trade
Manuscript Number:	Ms_JEMT_92087
Title of the Manuscript:	Production and price cycles in beef cattle in Rondônia state, Brazilian Amazon
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljemt.com/index.php/JEMT/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	A researcher can only conclude or argue based on his/her findings, but here there are some issues to be considered. For example, the recognition of Rondônia as FMD-free should not be used to generalize for boosting of cattle production as it needs further study as "impact of such vaccine on cattle production". There must be some recommendation based on your research output for policy makers and beef cattle producers. The seasonality of the price may also relate to some other causes such as holidays or festivals other than forage production. Better to see other causes.	
Minor REVISION comments	Why don't you recommend intensification to smooth supply rather than receiving lesser prices by supply during only peak forage production periods	
Optional/General comments	Minor grammatical and spelling errors should be considered for instance "All of this influences the" next to the last paragraph of Introduction part. And table 1. "Minicipalities"	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
