PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The abstract is good enough and has adopted the method used with the expected results, but the specific research objectives have not been seen. Hence need to be added.	
Minor REVISION comments	<ul style="list-style-type: none">• The research objective has not been seen in the introduction.• It's should that "aspects of previous work on the system" be summarized and included in the introduction, and the theoretical background included in the research methods section.• Conclusions must answer the research objectives.	
Optional/General comments	Overall, the script is good enough, but some parts need to be improved to pay attention to the words that are still wrong in typing, and the use of the symbol (>) is not correct.	

PART 2:
