	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>[1] This is good work but the article should be written with good English writing standard which is the case for the article but some spelling mistakes and word omissions need to be done as I have done in a supporting way that should be shared with the authors to reflect on and incorporate. [2] The writing of the reference should be consistently be written in one style and please write the names of all the authors and not et al. the article looks like what would constitute a chapter in a PhD thesis. The first page and last page of each reference should also be included.</b>	
<b>Minor</b> REVISION comments	See above	
<b>Optional/General</b> comments	Well done with your research and the results of your research have paved the way for other research work that should be recommended to reaffirm your findings as well as to be further expanded to include other animals and human beings in the future. Ethical approval for these research studies should be obtained always.
