

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_91968
Title of the Manuscript:	<i>Streptomyces peucetius</i> M1 and <i>Streptomyces lavendulae</i> M3 soil isolates as a promising source for antimicrobials discovery
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The manuscript body is well written and the topic is interesting.	
<b>Minor</b> REVISION comments	Check; <ol style="list-style-type: none"> <li>1. Spacing/formatting</li> <li>2. Italicize species constantly</li> <li>3. In methodology section, mention the interval times of sampling during fermentation? If there is. And how to harvest the biomass for further extraction?</li> <li>4. In methodology section, how to prepare the sample for GC?</li> <li>5. It is better to replace the references below 2010 with the most recent works</li> </ol>	
<b>Optional/General</b> comments	Methodology needs to have more details to make the research reproducible.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes. Kindly please write down the ethical issues here in details)</i>
