

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_92188
Title of the Manuscript:	Does Nifuroxazide Enhance the Effect of Metronidazole Oral Administration in the Treatment of Clostridium Difficile Infection?
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Manuscript with suggestions is attached with the file in email. Scientific language expected from such a good research topic. Reference? Vulnerable age group included? pregnant? Old age? Recheck statistical test explanation. Legends? Recheck, effectiveness of this method of evaluating pain. Better give reference. Discussion seems more kind of a replica of result description. I suggest not to repeat the information and focus more on other such study references or own study aim and objectives.	
Minor REVISION comments	Some typographical mistakes or overlooked pronounces like "subjects" in place of "participants". Please correct the same.	
Optional/General comments	Very nicely elaborated, clinically helpful research topic for benefit of patients. Scientific writing needs to be improved otherwise seems very good research project.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
