PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	An interesting paper related to contemporary advances in treatment of benign prostatic hyperplasia. The study is well planned and fulfilled. General quality of the paper and formatting suits the requirements. The list of references is adequate. The study may be useful for both clinicians and reserchers.	
<u>Minor</u> REVISION comments	The study has several limitations, which are indicated in the discussion section of the paper. Use of table an/or diagram for illustrating the summary of results is highly desirable as it may significantly upgrade the readability of the paper but not obligatory, though.	
<u>Optional/General</u> comments
