PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | Please include recommendation after the showing the result of the investigation and analysis of the gathered data. In this way the study can contribute in addressing the existing problem in the study area. | |
| Minor REVISION comments | | |
| Optional/General comments | Generally, the paper was written in a way it can be easily understood by the reader even by a non expert in the field of microbiology. The procedure and process on how the study was conducted was clearly explain, as well as, the results were discussed thoroughly. Implications of the findings of the study was also given, however, a suggested solution was not included in the paper. I would suggest for the inclusion of the possible way to help address the identified result that may affect human in consuming seafood from the study area. | |
