<b><u>Compulsory</u></b> REVISION comments	<b>The manuscript seems to review the effect of aflatoxin on the global economy and related health issues. However, most health issues were not addressed reflecting on the global location. Africa especially has a lot of global issues on aflatoxin. Health related issues of aflatoxin in Africa were not addressed fully. The construction and facts of the manuscript are not well arranged and proof reading I think was not well done. The manuscript comes with so many repetition on health and impact of aflatoxin on humans. The manuscript needs to be written again for consideration by the journal. There are major revision to be done. My recommendation is major revision by the author and resubmit for consideration for the publication by the journal.</b>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments
